KeikiSurfer
VDWS-KeikiSurfer-Roadshow 2006

The KeikiSurfer goes on Tour in cooperation with the VDWS and the European Union

After one season of searching for talents and offering seminars with a high frequentation and lots of fun, the initiators of the project KeikiSurfer, Julia Burkamp and Sebastian Ronneberger have found 6 highly motivated kids. Especially their strong personality and great performance on water are exceptionally.

The opening of the VDWS-KeikiSurfer-Roadshow will be on the 15th of April at the Lake Garda in Italy.

What have you planned for the season 2006?
Julia: While we have found the KeikiSurfer team now, we do not want to practice with these six kids only. There are also a lot of other high potentials. For this reason we offer on our six Roadshow events an open day each Saturday. Every interested youth can find us there from 10 to 16 o'clock to talk with each other and go windsurfing.

The local VDWS surf center will offer equipment and instructors. Beyond these trainings we will also be at the Surf-Festival Fehmarn. Furthermore, you cannot find us only in Germany, but also in Italy, Denmark and The Netherlands.

Why also abroad?
Sebastian: We want the kids being able to show a high performance on different types of water...lakes, rivers and the open sea. On the other hand, they shall motivate other kids at the different spots.

open day each Saturday. Every interested youth can find us there from 10 to 16 o'clock to talk with each other and go windsurfing.

The local VDWS surf center will offer equipment and instructors. Beyond these trainings we will also be at the Surf-Festival Fehmarn. Furthermore, you cannot find us only in Germany, but also in Italy, Denmark and The Netherlands.

Why also abroad?
Sebastian: We want the kids being able to show a high performance on different types of water...lakes, rivers and the open sea. On the other hand, they shall motivate other kids at the different spots.

Julia: We have found these 6 kids and plan various things with them for the next three years. We want to worm as much as possible out of their potential. Of course it should happen with amazing amusement.

Max:We are practicing not only on water. In addition we go biking, swimming and jogging. By this way we raise our condition and can learn new tricks much easier.

How is the project financed? Obviously there are caused a lot of costs for equipment, journeys and so on?
Sebastian: Yes, that's right. There are different types on which we spend a lot of money. Last year the project kept it non profit character because the attendees spent only the real costs for the seminars.

This year we are supported by the European Union by the initiative Youth For Europe, the VDWS and Caravanning Association.

How do you get to the surf spots?
Sebastian:We have a transporter with which we drove a lot of kilometers last seasons. This year we receive a motorhome thanks to the cooperation with the Caravanning Association.

Next year we will concentrate on further spots in whole Europe depending on which nations are interested in cooperating with us.

Thanks a lot and plenty of success...
